Regular Letters

True polar wander, a supercontinental legacy
D.A. Evans 1
Self-consistent generation of tectonic plates in three-dimensional mantle convection
P.J. Tackley 9
Block rotations and continental extension in the central Aegean Sea: palaeomagnetic and structural evidence from Tinos and Mykonos (Cyclades, Greece)
D. Avigad, G. Baer and A. Heimann 23
Mingling in mafic magma chambers replenished by light felsic inputs: fluid dynamical experiments
R.F. Weinberg and A.M. Leitch 41
Global de-correlation of the topography of transition zone discontinuities
Y. Gu, A.M. Dziewonski and C.B. Agee 57
Mantle ^{3}He in hydrothermal vents and plume of the Lucky Strike site (MAR 37°17′N) and associated geothermal heat flux
P. Jean-Baptiste, H. Bougault, A. Vangriesheim, J.L. Charlou, J. Radford-Knoery, Y. Fouquet, D. Needham and C. German . 69
Density profile of an SNC model Martian interior and the moment-of-inertia factor of Mars
C.M. Bertka and Y. Fei 79
A regional paleomagnetic study of lithotectonic domains in the Central Gneiss Belt, Grenville Province, Ontario
V.C. Alvarez and D.J. Dunlop 89
Interpretation of anisotropy of magnetic susceptibility fabric of ignimbrites in terms of kinematic and sedimentological mechanisms: An Anatolian case-study
J.-L. Le Pennec, Y. Chen, H. Diot, J.-L. Froger and A. Gourgaud 105
Field-dependence of AC susceptibility in titanomagnetites
M. Jackson, B. Moskowitz, J. Rosenbaum and C. Kissel 129
Low-temperature magnetic behavior of titanomagnetites
B.M. Moskowitz, M. Jackson and C. Kissel 141
Investigating solid mantle upwelling rates beneath mid-ocean ridges using U-series disequilibria, 1: a global approach
C.C. Lundstrom, Q. Williams and J.B. Gill 151
Investigating solid mantle upwelling beneath mid-ocean ridges using U-series disequilibria. II. A local study at 33°S Mid-Atlantic Ridge
C.C. Lundstrom, J. Gill, Q. Williams and B.B. Hanan 167
Granite–hydrothermal interaction: a simultaneous estimation of the mineral dissolution rate based on the isotopic doping technique
F. Seimbille, P. Zuddas and G. Michard 183
Water, partial melting and the origin of the seismic low velocity and high attenuation zone in the upper mantle
S.-i. Karato and H. Jung 193
Mechanical and phase equilibria in inclusion–host systems
Y. Zhang 209
In situ filtration and preliminary molecular analysis of microbial biomass from the Rainbow hydrothermal plume at 36°15′N on the Mid-Atlantic Ridge
D. O'Brien, M. Carton, D. Eardly and J.W. Patching 223
The early diagenesis of iron in pelagic sediments: a multidisciplinary approach
R.R. Haese, H. Petermann, L. Dittert and H.D. Schulz 233

Aseismic slip in earthquake nucleation and self-similarity: evidence from Parkfield, California
M. Heimpel and P. Malin 249
